## Summary

I'm a frontend developer with experience in React, focused on creating user-friendly, responsive web applications. I enjoy solving problems and working with technologies like Redux and API integration to build seamless digital experiences. I'm always looking to learn and grow, aiming to improve my skills and contribute to meaningful projects.

## Skills

**Programming Languages:** JavaScript | Python.

**Frontend Technologies:** HTML | CSS | Sass | Bootstrap | TailwindCSS | React | Redux | RESTful APIs

**Development Tools:** VSCode | GitHub | Git | npm | Vite | Postman |

**Database:** Firebase

## Experience

### EVAMP & SAANGA

Sept 2024 – Present

Frontend Developer Intern

Islamabad, Pakistan

- Developed interactive web applications using **React** and **Redux**.
- Built an e-commerce platform with an admin dashboard, implementing product listing, cart management, and checkout features.
- Integrated **Mock API** and **JSON Server** for backend simulation, ensuring smooth data flow and efficient state management.

### CYBERVISION INTERNATIONAL

Jun 2024 – Aug 2024

Trainee Web Developer

Swat, Pakistan

- Completed a USAID-supported, UNDP-implemented, and conducted by Cybervision international training program focused on modern web technologies.
- Gained practical experience by building real-world projects and earned a certification for outstanding performance.

### FORD9 SOLUTIONS

Feb 2024 – Apr 2024

Intern Web Developer

Swat, Pakistan

- Enhanced website performance and optimized user experience.
- Built a blog platform with CRUD functionality, integrated Firebase for real-time database and authentication, and developed an admin panel for managing posts securely.

## Projects

### E-commerce Store

**Technologies Used:** React, Redux, JSON Server, Mock API, CSS, HTML

- Built a dynamic e-commerce platform with an **admin dashboard** in which I integrated **Mock API** and **JSON Server** for backend simulation and seamless data flow and **Redux** for efficient global state management across the application. Implemented features like product listing, cart management, and check out.

### Blog Website

**Technologies Used:** React, Firebase, CSS, HTML

- Built a blog platform with **CRUD functionality** for creating, editing, and deleting posts and I integrated **Firebase** for backend services including authentication and real-time database. I also developed an **admin panel** for managing blog posts securely.

## Education

University of Swat, KP, Pakistan

March 2019 – March 2023

Bachelor of Science in Software Engineering

Swat, Pakistan

## Courses & Certifications

- Digital Skill Training Program (USAID, UNDP) – Completed a 2-month course on modern web development (2024).
- Web Development Bootcamp – Built foundational skills and practice projects during a 6-month intensive program (2024).
